Our 500 kW - 1 MW containerized commercial & industrial (C& I) energy storage system is engineered for large-scale applications such as factories, industrial parks, data centers, and microgrids.

The series commercial & industrial (C& I) power conversion system (PCS) is the on-grid (grid connected) type. made up by our self-developed 125kW energy storage power module (PCS module) and ...

Flexible and Convenient: Modular PCS allows for linear expansion of battery units and bidirectional energy storage inverter units; it possesses independent charging and discharging control capabilities ...

Built for rapid deployment, our 500 kW capacity batteries are a fast way to increase your efficiency, on or off the grid. Packaged with everything you need - from fire protection to HVAC - they're an effective ...

Built with multidirectional converters, Prisma Storage 500kW is CE+T Power 's modular PCS for large-scale energy storage systems requiring flexibility and ...
