Convert shipping containers into mobile power stations equipped with generators or solar panels. These can be deployed to remote areas or disaster-stricken regions to provide temporary power solutions. ...

The built-in AC outlet of this power station uses a pure sine wave inverter to ensure stable power output that is just as good as home power supply. This also reduces audible and electrical noises in fans, lights, speakers, etc. and will not cause damage to your devices, even sensitive appliances.

Here's how I did it. There are many ways to skin a cat, and even more ways to add solar power to a shipping container. To be fair, I cheated a bit.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.
