-----

The BBL unites the expertise of HU, HZB, and BAM to establish Berlin as a hub for researching sustainable battery technologies, such as sodium-ion, lithium-sulfur, and sodium-sulfur batteries.

The lab will pool the expertise of the three institutions to advance the development of sustainable battery technologies. The joint research infrastructure will also be open to industry for ...

The Fraunhofer Research and Development Center for Electromobility (FZEB) is working on efficient and sustainable solutions for battery recycling in Germany through its research and ...

The newly founded Berlin Battery Lab (BBL) combines the expertise of the German Federal Institute for Materials Research and Testing (BAM), the ...

The Berlin Battery Lab is open to industry partners from all over Germany and Europe and serves to promote the development and production of locally manufactured sustainable batteries.

The Chem4Batteries laboratory, located in central Berlin, works closely with TU Berlin, Humboldt University, and the Fraunhofer Institute as part of the city's ...

Berlin Brandenburg is one of the leading locations for R& D and applications in the battery sector.

The Federal Institute for Materials Research and Testing (BAM), Helmholtz-Zentrum Berlin (HZB) and Humboldt-Universität zu Berlin (HU Berlin) signed a Memorandum of ...

Das Labor wird die Expertise der drei Institutionen bündeln, um die Entwicklung nachhaltiger Batterietechnologien voranzutreiben. Die gemeinsame ...
