Boca Systems supplies a wide range of Lemur Thermal Ticket Printers with RFID, magnetics and other special features. We also print thermal tickets, labels and ...

Featuring fast charging, multiple output interfaces, rugged design, and intelligent energy management, they are perfect for outdoor adventures, emergency backup, RV travel, and off-grid living--ensuring ...

Short circuit protection (no damage) No damage hot swap, plug and play Built-in intelligent discharge circuit, automatic discharge of residual charge. High frequency transformer isolation o High Power ...

Boco's scalable energy storage solutions, including high-efficiency PCS inverters and integrated systems, empower large-scale commercial and industrial power stations.

With a peak efficiency of up to 94%, it minimizes energy losses and enhances overall system performance. Designed for stability, the converter operates within a battery voltage range of 35V to ...

Boco Electronics" 1.5KW Energy Storage PCS - Cost-Effective Edition delivers a maximum inverter AC output of 1500W and charging power of up to 1500W. It supports UPS mode with a switchover time ...

With an average efficiency exceeding 95%, this model provides high-efficiency power conversion, helping to reduce energy consumption and operational costs. The battery voltage range extends ...

Headquarters:Room 1001, 10th Floor, Building & Jinsheng Science and Technology Innovation Building, No. 611 Dongguan Road, Puyan Street, Binjiang District, Hangzhou City Business Lines ...
