Iraq's Ministry of Electricity is in final stages of discussions with China's Shanghai Electric to build power plants with a total capacity of up to 10,000 megawatts (MW), a senior official said.

Hitachi Energy offers a comprehensive range of high-voltage switchgear and breaker solutions up to 1200 kilovolts AC and 1100 kilovolts DC.

The Contractor shall make all the necessary arrangements for customs clearance in Iraq, the country of origin, and any countries through which goods pass. The Contractor shall obtain all the necessary ...

The Chinese-built plant has also made great contributions to the economic and social development of Iraq. The project has created nearly 3,000 jobs for locals, and trained a large number of Iraqi ...

In order to meet the requirement for wall mounting and front-end maintenance, the switchgear is equipped with a special current transformer, so that the operator can maintain and inspect it in front ...

As China dominates foreign investment, Iraq's success hinges on integrating China's delivery with US institutional support, ensuring oversight, knowledge transfer, and anti-corruption to ...

Reuters reports that Iraq's electricity ministry has signed a \$1 billion [1.2 trillion Iraqi dinars] deal with China's Shanghai Electric on Monday to nearly double the size of a power plant ...

Regardless of the specific makeup of the next Iraqi government, it is likely that Chinese firms will continue to enjoy an advantage.
