Although it recorded a contraction in both installed power (-12.2%) and the number of plants (-27%), according to Legambiente, the increase in production, compared to 2024, of +24.3% is ...

Italy's new energy decree aims to cut consumer electricity bills, but industry experts warn it could slash solar revenues by over 30%, slow the PPA and battery storage markets, and increase ...

In fact, Italian law does not allow for expropriation for solar PV and agrivoltaics. While it is possible to expropriate land for grid works, in most cases such works involve underground cables, ...

OverviewSolar potentialPhotovoltaicsEnergy policiesConcentrated solar powerEarly developmentsSolar power is an important contributor to electricity generation in Italy, accounting for 12.3% of total generation in 2023, and with a total installed capacity of 36.01 GW. As of 2023, government plans are targeting solar PV capacity to rise to 79 GW by 2030. Like most countries, solar power usage in Italy was minimal before the 21st century, accounting for less than 0.1% of electricity in 2000. During the 2000s, Italy was the t...

In northern Italy alone, the country benefits from around 30 percent higher global solar irradiation than Germany. This translates into higher and more stable yields, as well as a smaller ...

Despite its remarkable growth, the Italian solar market still faces challenges. Grid connectivity issues, particularly in southern regions, have ...

Italia Solare estimates that the country needs just 1 per cent of fallow farmland to fulfil its 2030 solar commitments -- but warns the new rules will ...

Compared to Germany, Italy does not face a major coal phase-out, yet unlike Spain, it has not fully capitalised on its renewable potential despite ...

As Italy's solar market looks to be finding its feet after a decade of stumbling around below the 1GW mark,

Does Italy take solar power seriously

2024 could be the year it starts to cover ...

Italy's rightwing coalition on Monday passed rules curbing the installation of solar panels on agricultural land, ministers said, in a move that ...
