The integrated containerized photovoltaic inverter station centralizes the key equipment required for grid-connected solar power systems -- including AC/DC distribution, inverters, monitoring, ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

The inverter and all other electrical components are delivered, installed and commissioned with the Solarcontainer. However, for country-specific ...

High-quality precision air conditioning unit with 24% energy-saving design. Try reliable,eco-friendly,longer lifespan Kstar battery to optimal performance. Smart ...

The solution adopts new energy (wind and diesel energy storage) technology to provide a reliable guarantee for the stable operation of communication base stations.

This power station is supplied totally equipped with several high-efficiency PV inverters, the LV/MV transformer, MV switchgear and LV switchgear. It can be equipped with up to two dual inverters, in ...

This large-capacity, modular outdoor base station seamlessly integrates photovoltaic, wind power, and energy storage to provide a stable DC48V power supply and optical distribution.

These devices play a crucial role in bridging solar power generation with energy storage solutions, especially when paired with lithium batteries. This ...

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.
