-----

Having bluetooth to actually see what is happening at cell level makes a huge difference when things go wrong. If your battery does a high voltage disconnect, you have no idea why unless ...

Will they drop off and loose capacity a little prematurely, or will it be a sudden complete failure at only 1.5 years with the seller long gone? I was looking at building something with the \$30 ...

Bumping this one up and wondering if anyone that owns the Eco Worthy lithium batteries can give me a review to date. I am looking at the 280 AH to replace two deep cycle, group 24 ...

I have a rescue mode on a mains based battery charger. It's saved a couple of batteries. Discharges safely and then recharges slowly.

Lithium batteries (Lifepo4) are becoming more and more common in daily life. What would you do if you're experiencing issues with the lithium battery? Now, check out these common ...

Wonder if I may impose on some of you for your experiences with Eco-Worthy batteries. In late December I picked up three of their 150AH batteries, with Blue Tooth interface on sale.

Has anybody had a bad experience with this brand of battery? I have only 9 months experience so far. The only negative I have to report is the lack of a cold temperature sensor to ...

I have two 10K Eco-worthy inverters and 6 Eco-Worthy 48V batteries mounted in a rack. I had the system connected to the house for an hour last week just to test it.

In the case of the Eco Worthy Lithium battery range, it's good news. It's a high quality BMS. It has the ability to control the voltage of the ...

For me it would be simply capacity and price (to an extent), if I was buying now I would have no problem

# Eco worthy lithium battery problems

with Eco-worthy. I think I have seen even cheaper on the net but no name so I ...
