China has produced an excess of solar panels, causing overcapacity issues domestically and abroad. The US, the European Union, and China are facing challenges because of the glut of ...

Bloomberg Opinion's climate columnist visited Michigan, the former heart of the solar industry, and China to learn how good, old-fashioned capitalism won out. It all starts with a crystal.

Europe's solar boom has quietly handed Beijing remote access to hundreds of gigawatts of its power capacity. Without a 5G-type toolbox banning ...

Globally, China's clean energy boom is reshaping markets: the country makes 80% of the world's solar panels and 60% of its wind turbines, ...

China is expanding renewable energy exponentially while the U.S. is going backward. How China became the global leader, why the U.S. falling behind and what it means for these ...

LONDON, May 14 (Reuters) - U.S. energy officials are reassessing the risk posed by Chinese-made devices that play a critical role in renewable energy ...

From west Africa's Sierra Leone and Liberia to Kiribati and Tonga in the Pacific, the impact from China's rising dominance as the world's first ...

U.S. President Donald Trump may have spurned solar power, but that has done little to slow the solar revolution that is sweeping nearly every ...

As domestic constraints tighten, Beijing's solar dominance is increasingly expressed through overseas localisation, strategic leverage and rule-setting in emerging energy technologies.

Foreign Internet comments on China s solar power generation

Solar power is the most spectacular of China"s clean-energy game changers; its fruits can be seen all around the world and at every scale, from ...
