Libya geography information with maps, current climate, terrain and ...

Most of Libya's population lives in cities along the Mediterranean Sea, where the climate is milder than the country's hot desert interior. The capital of Tripoli and ...

Find out where is where is Libya located. Geographical and map position of the Libya.

OverviewGeographical summaryArea and boundariesClimate and hydrologyTerrain and land useEnvironmental issuesExtreme pointsNotesLibya is the fourth largest country in Africa and the seventeenth largest country in the world. It is on the Mediterranean with Egypt to the east, Tunisia to the northwest, Algeria to the west, Niger and Chad to the south, and Sudan to the southeast. Although the oil discoveries of the 1960s have brought immense wealth, at the time of its independence it was an extremely poor desert state whose only important physical asset appeared to be its strategic location at the midpoint of Africa's northern rim.

Libya, located in North Africa, is bordered by Egypt to the east, Sudan to the southeast, Chad and Niger to the south, Algeria and Tunisia to the west, and the ...
