It's really hard to figure out how these things work. I always feel like maybe I just missed some core tutorial somewhere, like how to import stock ...

This pack contains various solar panels that I've sourced from spacecraft concepts. They range from small concentrated solar panels to massive blanket solar arrays.

In Kerbal Space Program, solar panels are essential for providing power to your spacecraft. To efficiently use solar panels, it is important to consider the placement and orientation, ...

In the stock version of Kerbal Space Program, the energy output of solar panels is affected by direct sunlight, being blocked by terrain, being blocked by satellites, ...

Firstly, you need another solar panel. Each device requires one unit of power, so ...

The OX-Stat-PD Photovoltaic Panel is a placeable solar panel. Its ...

A mod pack for Kerbal Space Program, delivering a lot of new solar panel models. Bigger, better or just different solar panel models based on many real or ...

How do i connect the OX Stat PD to the Go-Ob ED Monitor? I mean, how do I connect the Photovoltaic Panel in order to make it power the Go-Ob?

I've built a Mun-orbiting science station to process all the experiments that I've gathered from surface and space around. Basically this is ...

Share your Kerbal Space Program craft, with automatic detection of mods, search by mod & craft attributes.
