Trying to understand how to best/properly determine the correct cable/wire size to use between two 440 Watt Solar Panels and an MPPT Charge Controller. The distance between the panels and the ...

Two MPPT controllers serving one battery bank James Solar Expert Posts: 250 April 2015 #1 Hello folks, I realized I had my question here posted in an incorrect sub topic forum, so, I'll set it here; I'm ...

I'm currently in the market for a new MPPT charge controller. Since one of my favorite hobbies is ham radio, I am searching for a controller that does not produce a bunch of radio frequency interference ...

Morning all, I have an MPPT charge controller rated for 40A, and can take an input of 12 or 24v, and output 12 or 24v.

Is there a rule for mixing different size panels to connect to an mppt charge controller? I have a set of 24V panels. (6) are 320 watt and (2) is 370watt.

I have installed two 5kva MPPT inverters, each with separate battery bank and separate front end load of appliances. The only thing shared between both is PV input which is a 96 volt 6000 Watts array.

Hello, how to charge 12v battery with 48v solar panel throw mppt solar charge controller? Is it possible? What will happen if I do that?

Typical recommended MPPT nominal voltage input for a given system is double the battery bank voltage.

OK, I'm looking at using something like the MorningStar TS-60 MPPT controller in my RV to charge my coach batteries from 2 - 300W panels. (~600 Total) I currently have a pair of 170Ahr 12V batteries ...

I'm curious if I can use both a pwm and a mppt controller on a single battery bank at the same time.
