---

When compared to the situation in 2023, generation of energy from grid-connected PVs increased by 5.8 per cent, totalling an estimated value of 326.5 GWh. Most energy was generated in ...

Maltha Glass Recycling has made significant strides in creating sustainable solutions for the recycling of solar panels, a pressing issue given the ...

Alternative Technologies Ltd. was set up in 2008 with a mission to provide homeowners and businesses alike with the right guidance to achieve their ...

Onyx Solar has implemented its low-e amorphous silicon photovoltaic glass in the facade of a governmental building in Malta. The project entailed the manufacturing of 124 glass modules, fully ...

We are passionate about providing sustainable energy solutions that help our customers reduce their environmental impact while improving energy efficiency.

A standardized model is presented for evaluating the efficiency of spectral converters integrated into PV glass, systematically assessing spectral ...

Glass-glass encapsulation, low-iron tempered glass, and anti-reflective coatings improve light management, durability, and efficiency. Advances in glass compositions, including rare-earth...

While the waters off the coast of Malta offer a potentially expansive area for offshore renewable energy development, deep bathymetry has hindered the deployment of conventional fixed offshore structures.
