The US energy storage startup Form Energy is challenging Tesla's new Megapack 3 rollout with a new 100-hour iron-air battery.

The Key Energy Storage project proposed for Fresno County, California is an innovative battery energy storage facility that features batteries with a capacity of up to 300 megawatts (MW) and a 4-hour ...

Global demand for energy storage is surging. Lithium-ion leads today, but new contenders like sodium-ion, flow, and gravity systems are ...

"We are pleased to partner with NextEra Energy Resources to develop our first large-scale battery energy storage project, Weld Energy ...

A large lithium-ion battery storage project that contributes to grid stability and supports the integration of renewable energy, Leighton Buzzard ...

As the founder and moderator of the Energy Storage Exchange Club - a dynamic LinkedIn community of over 15,000 experts pioneering advancements in Battery Energy Storage Systems ...

Smartstack reimagines energy storage design through a flexible modular architecture that can be tailored for varying market needs. 2-hr and 4-hr storage durations as well as longer 6-hr and ...

New Leaf Energy is developing a 105 MW (gross) / 4-hour battery energy storage system that will enhance the flexibility and reliability of the ...

The GSL is an energy storage research and testing facility that will accelerate development of next-generation grid energy storage technologies ...
