Electric Double Layer Capacitors. It is a high-power, long-life, wide operating temperature range, and high-reliability energy storage device, widely used in ...

It is a national specialized and innovative "little giant" enterprise that integrates the research and development, manufacturing, and sales of aluminum electrolytic capacitors, solid-state capacitors, ...

SuperCapacitors are a valuable technology for providing a unique combination of characteristics, particularly very high pulse power and capacitance densities.

A capacitor is a passive device on a circuit board that stores electrical energy in an electric field by virtue of accumulating electric charges on two close surfaces insulated from each other. This is a list of known capacitor manufacturers, their headquarters country of origin, and year founded. The oldest capacitor companies were founded over 100 years ago. Most older companies were founded during the AM radio era, which includes the World War II era and post war era. As the demand for advanced electronics con...

General Capacitor LLC (GC) a high-tech startup company nurtured and promoted by Florida State University Research for development and manufacturing of lithium ...

Energon is an emerging new energy company, as well as a developer and manufacturer of energy storage module solutions. The energy storage modules ...

Kamcap is one of the leading supercapacitor manufacturers in China. We supply high-quality ultracapacitors, including coin type supercapacitor, winding type supercapacitor, combined type ...

United Chemi-Con, a subsidiary of Nippon Chemi-Con Corporation established in 1970, is a manufacturer and supplier of aluminum electrolytic capacitors based ...
