Many customers explore off grid solutions due to the simplicity and maneuverability of our containers. As long as a truck can get to the plot of land, we can drop ...

High-Efficiency Solar Panels: Equipped with grade-A monocrystalline silicon solar panels, our system provides maximum energy conversion efficiency, making it an ideal choice for industrial and ...

Our containerised hybrid power system is an ideal solution for those needing deployable power, emergency power, back up power, ...

All-encompassing, fast, and resilient solution for disaster preparedness. A ready-to-install 2-3 kVA power module with 4-6 solar panels and lithium battery storage. ...

Our Hybrid Solar Container offers unmatched scalability and precision for operational needs, making it an ideal choice for army bases, disaster relief zones, and remote off-grid

Delivering 10,000W of rated power output, this rugged pure sine wave hybrid inverter is capable of pairing with either GEL or LI batteries. Dual MPPTs provide 99% efficiency. Provides 120V and 220V ...

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency ...

Detailed guide to the many specifications to consider when designing an off-grid solar system or complete hybrid energy storage system. Plus, a ...

From solar power integration to innovative water systems, our homes are designed to help you reduce your reliance on external resources and thrive off the grid.
