-----

First, make the whole surfaces of the PV panels clean, and clasped the water clip to the bottom edge of the panels, and don't tilt it, so it is OK, if it rains again, there ...

Efficient Drainage: These clips feature a hydrophilic agent within ...

The PV panels water drained away clip is a self-fastening clip, made of plastic. The length is about 68 mm, weight 8 grams, and the width is based on the thickness of the panels aluminum alloy frame.

Learn how the water drainage clips for solar PV panel frame work to improve drainage, prevent corrosion, and extend solar panel lifespan
