For the latest updates and more information, visit our website: <https://ledact.co.za>

The automatic photovoltaic string welding machine, with its flexible compatibility, can adapt to the welding of solar cells of various specifications, ...

Tabber Stringer Machine is used to weld solar cells to strings; Solar cell stringer machine OCH1500 adopts IR soldering method, servo motor driving and industrial ccd positioning & detection for ...

The present disclosure discloses a continuous string welding device for photovoltaic cells and a welding method. The device includes a power transmission mechanism and a welding light...

String welder is the equipment that connects the cells in series to obtain high voltage, and it is also the equipment with the highest technology and value in the PV module ...

The first phase in a photovoltaic module manufacturing line is joining the solar cells, which is done by a solar tabber and stringer, a totally automatic ...

Fully automatic string welding machine (BC-Photovoltaic Industry Chain Solution|Changzhou Fuyouda Intelligent Equipment Technology Co., Ltd

Stringer machines built in our warehouse go through quality checks to ensure precision and consistent output you can rely on. Over the years, our machines ...

The photovoltaic string welding machine uses infrared heating or laser welding technology to quickly weld the solder-coated ribbon to the main grid line of the battery cell to form a highly conductive ...

Solar cell welding machine OCH1500 can be integrated with automatic layup machine to achieve the composing and locating of solar cell ...

Photovoltaic bracket string welding machine

We have independently developed twelve core equipment models. To date, we have delivered 19 sets of 100MW photovoltaic module production line equipment ...
