For the latest updates and more information, visit our website: <https://ledact.co.za>

Our main products include Galvanized Fireproof Iron Sheet, Curtain Wall Accessories, Photovoltaic Series, Photovoltaic Bracket, Earthquake-Resistant Series, Earthquake-Resistant Bracket.

We design and manufactures structural hardware for residential and commercial solar systems.

SteelPRO Group is a manufacturer of high-quality galvanized steel photovoltaic racking, providing reliable, durable and efficient photovoltaic support solutions tailored to your needs.

Our spiral pile, made of Q355 (hot-dip galvanized), is corrosion-resistant and can be used for a long time. About us:

Energy Steel's high-quality photovoltaic brackets are crafted to meet the demanding standards of the solar industry, offering both strength and versatility for diverse ...

According to the specification requirements, the curtain wall components are generally galvanized, but it is not clear that the embedded parts of the curtain wall must be galvanized, which is only an anti ...

Explore the advantages of using hot-dip galvanized solar structures. Learn why strong solar panel structures and solar mounting systems ensure ...

Our photovoltaic business integrates production and sales, with application areas including distributed household photovoltaics, distributed industrial and commercial photovoltaic ground power stations, ...

These foundations consist of a galvanized steel post embedded in a concrete form dug into the earth. These foundations are more common to smaller projects ...

From the design concept, we took into account the anti-slip property of the photovoltaic walkway board surface and adopted the pattern design and shape ...
