SAIL SOLAR is a professional photovoltaic products manufacturer, we specializes in research, production and sales of solar photovoltaic products and solar energy system.

Welcome to ITECH

PROBLEM Controllable, consistent, stable, and wide-ranging solar module performance cannot be easily achieved, and in some cases is nearly impossible to obtain, with a solar module ...

SOLAR INVERTER We are in the process of designing a low cost modular 3000W solar inverter capable of working off-grid and on-grid

Experience the power of Elgar's Solar Array Simulator. Reproducing diverse solar array outputs, it accurately mimics various input conditions for ...

We specialize in delivering comprehensive solar energy solutions tailored to meet the unique needs of our clients. Our offerings feature industry-leading Deye inverters, high-performance ...

The user can easily program the I-V curve of the Solar Array Simulator as well as the I-V & P-V curves for real-time testing. In addition it will display ...

It was developed specifically for testing inverters and simulating solar arrays and is suitable for use in laboratories and on test benches. The modular ...

It can simulate an I-V curve accurately and response the mains ripple effect from the PV inverter. In addition, the built-in EN50530/Sandia SAS I-V model in the standalone unit can easily ...

Each testing scenarios has their own specific power rating requirements considering that micro-inverters, string-inverters and central inverters are targeted for ...
