Home / Alternative Energy / Supercapacitors / SC-48V-7100W - Supercap KWL Sirius Gen 3 7100Wh 48V (7,1KWh 48V Super capacitor energy storage module)

IMEON ENERGY has developed a dedicated battery management software foreseen for Kilowatt Labs SIRIUS supercapacitor-based modules. The software ...

Testing the turn around efficiency of a 3.5 kWh super capacitor battery. Claimed efficiency 99.1%, actual efficiency 93% Claimed operational ...

The supercapacitor based storage, the Sirius, delivers the first super capacitor based energy storage system as an alternative to chemical batteries. Sirius Energy Storage is enabling a meaningful ...

Supercap cell projected calendar life of 45 years and cycle life of 1,000,000 cycles. Works with standard inverters/rectifiers/regulators used with Lead Acid or Li Ion batteries. Max. Rate of Charge2. Max. ...

The world's first supercapacitor-based energy storage system Sirius Energy Storage products for stationary applications are currently available in selected ...

The Sirius Capacitor Module ("Sirius") is supercapacitor-based storage that uses supercapacitors as storage cells instead of chemical cells.

under any circumstance. 1The temperature range indicates the range in which the supercapacitor cells can operate. The performance of the cells may vary if they are continuously operated outside a ...
