Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.

Solar containers represent the most efficient method for deploying utility-grade power in off-grid environments. They bridge the gap between temporary diesel generators and permanent ...

Ideal for temporary power, remote locations, or emergency backup, these all-in-one solutions combine high-efficiency solar generation with integrated storage for rapid deployment in construction, events, ...

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks ...

MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada & USA.

We offer two types of solar containers that differ in design and power output. Besides our flagship, auto-foldable container, we also offer ...

SolaraBox is built to solve project power needs. The system is modular and easily scalable: you can add multiple units to increase output, and it supports on-grid, off-grid, and hybrid configurations.

Our Solarfold(TM) containers can be fully deployed and operational in under 6 hours. The automated
