The Major Solar Projects List is a database of all ground-mounted solar projects, 1 MW and above, that are either operating, under construction or under development.

You can then select a specific concentrating solar power (CSP) project and review a profile covering project basics, participating organizations, and power plant configuration data for the solar field, ...

Committed to Restoring America's Energy Dominance.

This webpage provides information for each project that has been provided solar capacity in the Pilot Program. This information has been provided by the Subscriber Organizations and is updated at ...

The Global Solar Atlas provides a summary of solar power potential and solar resources globally. It is provided by the World Bank Group as a free service to governments, developers and the general ...

Concentrating solar power (CSP) projects in United States are listed below alphabetical by project name. You can browse a project profile by clicking on the project name. You can also access ...

OverviewDescriptionFossil fuel consumptionEconomic impactPerformanceEnvironmental impactsIn popular cultureExternal linksThe Ivanpah Solar Electric Generating System is a concentrated solar thermal plant located in the Mojave Desert at the base of Clark Mountain in California, across the state line from Primm, Nevada. It was slated to close in 2026, but that decision has been reversed by the California Public Utilities Commission. The facility derives its name from its proximity to Ivanpah, California, which lies within the Mojave National Preserve

This over \$227 million New ERA investment will enable Inland Power and Light Company to procure over 273 megawatts of capacity of solar and wind generation to serve our members in rural areas of ...

The U.S. Large-Scale Solar Photovoltaic Database provides the locations and array boundaries of U.S.

## Solar power generation pilot areas

photovoltaic facilities, with capacity of 1 megawatt or more.

The Somerset solar project is a 125 megawatt (MW) solar photovoltaic electric generating facility proposed to be located in the Town of Somerset, New York. The facility is located, in part, on ...
