SLENERGY provides advanced energy storage cabinets with intelligent control, high safety, and long-term performance for commercial and industrial power applications.

BESS is a battery energy storage system with inverters, battery, cooling, output transformer, safety features and controls. Helping to minimize ...

Combining solar power, energy storage, and communication power in telecom cabinets boosts reliability and cuts energy costs. Proper sizing of solar panels and batteries ...

Eliminates the need for the giant cranes typically used for large 50-ton block storage, simplifying shipping and logistics. Installs faster than competing AC storage systems. Maximizes density, ...

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, ...

The "all-in-one" design integrates batteries, BMS, liquid cooling system, heat management system, fire protection system, and modular PCS into a ...

The Base Station Energy Cabinet is a fully enclosed, weather-resistant telecom energy cabinet designed to provide reliable power distribution and battery backup for outdoor communication ...

As businesses seek faster ROI, enhanced safety, and operational simplicity, the All-in-One C& I Energy Storage Cabinet meets these needs with a true plug-and-play solution.

An Outdoor Photovoltaic Energy Cabinet is a fully integrated, weatherproof power solution combining solar generation, lithium battery storage, inverter, and EMS in a single cabinet.

Transmission node uses an IP67 intelligent energy storage cabinet

With a variety of sizes available in aluminum or plastic, we'll help you find your perfect IP67 enclosure solution. IP67 enclosures are ideal for any ...
