The project aims to meet the full energy needs of both the Vatican State and Vatican Radio using solar technology integrated with agricultural ...

Italy has agreed to a Vatican plan to turn a plot of land north of Rome into a solar farm that will generate enough electricity to meet the needs of Vatican City.

The Vatican is now completely powered by a farm that sports solar panels to help shade-tolerant crops thrive. This new coupling of solar and ...

The world's smallest country just made a big move: Vatican City is now powered entirely by solar energy, setting an example for global climate action.

Vatican officials have estimated it will cost under 100 million euros (\$114 million) to develop the solar farm, and that once it is approved by the Italian parliament, the contracts to do the...

Italy has agreed to a Vatican plan to turn a 430-hectare (1,000-acre) plot of land north of Rome into a vast solar farm that will generate enough ...

The Vatican is going solar. The Holy See will use land outside Rome that it already owns to construct an agrivoltaic plant to power the entire city-state.

The Vatican intends to achieve energy independence with solar power and is turning to a combination of agriculture and photovoltaics, ...
