If you're looking for the simplest and easiest way to build a reliable, high quality off-grid solar system that can power a container or tiny house, you've come to the right place.

Thinking of adding solar panels to your shipping container? Learn key considerations, how many panels fit on 20ft and 40ft containers, plus tips and ...

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

With a 12 or 24-panel solar array (4 to 8 kWp), 3-stage water purification system, lithium battery storage, multiple output ports, and an optional cellular router/modem, it's amazing we fit it all into a 6ft (2m) ...

We offer two types of solar containers that differ in design and power output. Besides our flagship, auto-foldable container, we also offer ...

Fit your container roof with gutters and a first-flush diverter to direct the cleanest rainwater into storage tanks made of food-grade plastic or stainless steel.

We design a solar container that fits your needs and send you a personalized quote.

Here's how I did it. There are many ways to skin a cat, and even more ways to add solar power to a shipping container. To be fair, I cheated a bit.

In short, you can indeed run power to a container - either by extending a line from the grid or by turning the container itself into a mini power ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the
