Across America, local bans, moratoriums and construction impediments are blocking wind and solar energy with increasing levels of red tape. Here's what USA TODAY's analysis found.

USDA bans taxpayer-funded solar projects on productive farmland, reversing a decade-long trend of agricultural land loss to subsidized "green" ...

Unprecedented local opposition and anti-solar local ordinances, along with the loss of support from the Trump administration, is driving a need ...

Across America's power grid, there's a growing gap between what we need and what we'll allow. As the planet warms and climate disasters grow more costly, the U.S. has set a target to reach ...

As the planet warms and climate disasters grow more costly, the U.S. has set a target to reach 100% clean energy by 2035, a goal that depends on ...

President Donald Trump on Wednesday said his administration will not approve solar or wind power projects, even as electricity demand is outpacing the supply in some parts of the U.S.

Efforts to deploy wind and solar systems face a rising tide of ...

At least 15% of counties in the U.S. have effectively halted new utility-scale wind, solar, or both, USA TODAY found. These limits come through outright bans, moratoriums, construction ...

In countries like Germany, balcony-mounted solar panels are all the rage. But from breaker-masking to voltage mismatches, America's grid isn't ...

Solar panels make up the vast majority of the value of shipments stopped at the U.S. border under a 2021 law banning goods made with Chinese forced labor, according to new data from ...
